PLAYSCAPE
Playground & Shading Solutions

CREATING THE PERFECT PLAYGROUND & SHADING SOLUTION

PREMIUM RANGE
JUNGLE GYM BROCHURE

Our goal is to create safe and innovative playgrounds.

We have a solution for all your playground needs. We offer everything from jungle gyms to tree houses, swing sets, pool slides, obstacle courses, flooring solutions and repairs & maintenance.

Choose from our standard jungle gym designs or allow us to build a fully customized design to create something *Funtastic* from scratch. We love new ideas…

Don't delay, contact us today for a no obligation quotation!

Situated in the Northern Suburbs of Cape Town

Installations done throughout the Western Cape Region

Follow us on Facebook for up to date projects and photos

CREATIVE OUTDOOR SPACES

© 2024 Playscape - Jungle Gyms & Playground Equipment. All Rights Reserved. All designs created exclusively for PlayScape.

OUR STANDARD DESIGNS makes choosing the right jungle gym a little easier. Our brochure displays a variety of play structures from small to large, with full description, price and floor plan.

CUSTOMIZED JUNGLE GYMS

PlayScape specializes in custom-built jungle gyms & tree houses. We'll work with your available space and build a spectacular design to compliment your garden and meet your requirements.

POOL SLIDES

We offer a variety of pool slides for young and old. Choose from our standard kiddies slides or let us build a fully customized super tube slide suitable for adults and kids.

DIY KITS

Thinking of a fun weekend project? How about a team building or community project? Would you like to purchase a jungle gym but geographically you're too far for us to do the installation? Then why not consider a D.I.Y. KIT?

FREE STANDING JUNGLE GYMS

Considering a jungle gym for your kids... but don't want a permanent structure in your back yard?
We have a solution… PlayScape can offer you a free-standing jungle gym.

QUALITY STRUCTURES BUILT TO LAST FOR YEARS

- We only use treated timber and poles.
- Structures are sanded and then coated with an exterior wood sealer.
- Only quality hardware and accessories are good enough for us.
- Fixed structures are concreted into the ground for extra support and stability.
- There are no protruding hazardous objects.
- No gaps between the planks on the platform.
- The standard height of our platforms are 1.4m from the ground, unless otherwise requested. Our lower platforms are 900mm & 1.2m from the ground.
- We always fit safety rails around our platforms.

CREATIVE OUTDOOR SPACES

TAPERED vs CYLINDRICAL

You have the option to choose between tapered or cylindrical pine poles.

What's the difference?
They're both cut from pine trees. Both options are CCA treated and equally matched in durability.

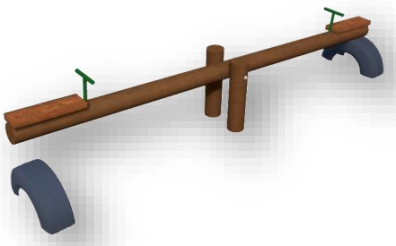

Cylindrical poles are lathe turned (machine turned), ensuring that each pole has an equal diameter throughout their length. Cylindrical poles give a neat, clean-cut look to your jungle gym.

Tapered poles have been "peeled" (sent through a machine to remove the bark). The diameter varies from thick to thin throughout their length, giving a more natural and slightly rustic look to your jungle gym.

Feel free to give us a call if you have any questions.

Prices include all poles, timber, hardware, accessories, sand, stone, cement, wood sealer and installation within a radius of 30km from Milnerton.
NB: All prices exclude a stock delivery fee.
Prices are VAT inclusive.
View our terms & conditions on the last page for full details.

ALPHA 1: Tapered – N/A / Cylindrical – R7,750

Single See-Saw
Floor space - 0.6m x 3.6m

ALPHA 2: Tapered – N/A / Cylindrical – R9,000

Double See-Saw
Floor space - 0.6m x 4.2m

PLAYSCAPE TERMS & CONDITIONS – PREMIUM RANGE

- PRICES ARE VAT INCLUSIVE
- PREMIUM RANGE IS CONSTRUCTED WITH TREATED PINE POLES AND TREATED TIMBER
- STANDARD PLATFORM HEIGHTS ARE 1,4M & 1,2M FROM THE GROUND
- PRICES INCLUDE A WOOD SEALER TO COAT AND PROTECT YOUR STRUCTURE
- PRICES INCLUDE INSTALLATION IN THE CAPE TOWN REGION (see Pricing & Quotations)
- PRICES EXCLUDE A STOCK DELIVERY FEE
- OUR PREMIUM RANGE ALLOWS FOR FULLY CUSTOMIZED DESIGNS
- CLIENTS MAY CHOOSE TO REMOVE OR ADD ON ADDITIONAL COMPONENTS TO MAKE IT YOUR OWN (cost will vary)
- DISCUSS YOUR REQUIREMENTS DURING THE QUOTATION PERIOD SO THAT WE CAN QUOTE ACCORDINGLY

PRICING & QUOTATIONS

Prices include installation within a radius of 30km from Milnerton (unless otherwise discussed and stipulated in your quotation).
Extra traveling, installation & delivery fees will apply for installations further away.
Delivery and installation is not included when ordering a D.I.Y. KIT or when purchasing any of our loose components and accessories, separately.
Prices include VAT.
All prices exclude a stock delivery fee. Stock delivery fees are the costs from our suppliers to deliver stock/material to your premises.
Poles & timber, sand & stone or other materials / stock will be delivered directly from our supplier to your premises. The cost will be calculated according to your location and the size of your order. Delivery costs will be stipulated in our quotation and added to the total of your order.
Our prices are based on installations done on a flat / level, soft soiled or regular grassed area. Additional costs may apply for sloped surfaces, areas with access limitations, stairs or areas that are awkward to reach or work in. Additional costs may also apply for special machinery / tools, labour and possible delays in workmanship when installing into hard or rocky surfaces or where an area needs to be prepped before we can start with the installation.
It is the client's responsibility to notify us during the quotation period of any special flooring and the type of surface area we will be installing on.
Additional costs will apply for installations done on paving, tar, cement, tiles, rubberized flooring and artificial grass.
Although we try our very best to work as carefully as possible on your special flooring, PlayScape will not be held liable for any damages to the aforementioned surfaces. Ideally, your jungle gym should be installed before you have the flooring installed. Should we need to work on any of these surfaces, then any damages and the closing up of the holes where we have planted the upright poles is for the client's own account.
Any changes to design, layout, special requests, unforeseen or additional work, extra materials or tools required during or after installation will be for the client's account and invoiced accordingly.
Quotations are valid for 14 days only.

INSTALLATION

A scheduled delivery of materials to your premises will take place prior to the installation date and will be communicated with you.
On the day of installation, we will arrive at your premises and will need to liaise with someone regarding the positioning of the structure. The exact positioning of the structure must be confirmed before we start with the construction. Additional costs will apply to move or reposition the structure if we have already started or completed the installation.
We will need access to water and an electrical point. If this is not available, then please discuss this during the quotation period so that we can arrange for alternative provisions and quote accordingly.
The client is responsible to make sure that the installation area is cleared of plants, trees and unwanted structures before the installation date.
Additional costs will apply if we need to prune, cut or clear any vegetation or unwanted structures when we arrive on site.
NB: Please note that we do not remove plants, trees, sand, rocks, rubble or unwanted structures from your premises. This is for the client's own account.
The client is responsible to indicate underground pipes, cables, irrigation and plants which could be damaged. Damages will be for the client's account if we are not notified before we start with the installation.
Installations take place weather permitting and will be rescheduled accordingly.
Any unforeseen circumstances which may cause delays on site will be discussed with our client and where applicable extra costs may apply.
Once the installation is completed and before we leave your premises, we will need to liaise with someone to finalize the installation and sign off the project.
Please allow a minimum period of 24 hours after the structure has been installed before use. This will give the cement time to set and the sealer time to dry. (unless otherwise discussed)

PAYMENT

A 75% deposit is required upfront. The outstanding balance is due and payable on the day of completion.
An installation date will be confirmed once we receive proof of payment for the deposit amount.
All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.
